# Counterfeits.

Read what one of the GREATEST NEWSPAPERS IN AMERICA has to say on this subject:

"The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trademark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents, and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years. - Philadelphia Bulletin.

#### Letters from Prominent Druggists addressed to Chas. H. Fletcher.

Conger Bros. of St. Paul, Minn., say: "Fletcher's Castoria is certainly full of merit and worthy of recommendation." C. G. A. Loder, of Philadelphia, Pa., says: "For 26 years we have sold Fletcher's Castoria and are pleased to state that it has given universal

The Scholtz Drug Co., of Denver, Colo., says: "Fletcher's Castoria has surely become a househeld word. Seemingly every family where there are children uses it."

Hoagland & Mansfield, of Boston, Mass., say: "We have nothing but good to say about your Castoria and we do not hesitate to give it our

unqualified endorsement." Riker's Drug Stores, of New York City, say: "Fletcher's Castoria is one of the oldest and most popular preparations in our stores. We have nothing but good to say about it."

Wolf-Wilson Drug Co., of St. Louis, Mo., says: "Of the thousands of patent medicines for which we have demand there are a very few of them that we can conscientiously recommend and your Castoria is included in this few."

B. R. Dyche & Co., of Chicago, Ills., say: "The increasing demand for your Castoria shows that a discriminating public is not slow to seek out a remedy of merit and once convinced that it does all and even more than claimed they do not hesitate to recommend it to their friends."

The Owl Drug Co., of San Francisco, Cal., says: "We have always been a believer in the 'original man protection' and have been particular never to sell anything but the genuine and original Castoria (Fletcher's). We have many calls every day for this article from people who say they would not be without it in their homes."

The Kind You Have Always Bought

### STRESS OF BUSINESS

A nation's necessity has plunged many thousands of boys and girls in their teens into the vortex of business before their time. Many will feel the strain upon vitality and energy and likewise the need for the nourishing and tonic virtues of

A very little, taken regularly, is far more beneficial than when taken by fits and starts. Scott's Emulsion is concentrated nourishment that contributes to strength and helps confirm the body in vigor and health.

Middletown, Conn.
"I used Vinel for my little girl five
years old for a rundown, pervous condition. She was thin, irritable all the

time and had no appetite. In a week I noticed an improvement and now she has a good appetite, has gained in flesh and streagth and is much pleasanter."—Mrs. C. B. Wilkinson.

**Delicate Children** 

Vinol is What They Need

More than eight thousand druggists recommend Vinol because it contains in deliciously palatable

form the oldest and most famous reconstructive

tonics known to medicine. During the last sixteen years it has brought health and happiness to thou-

sands of puny, ailing, anaemic children.

barber chair to be shaved for the first time he feels like a bare faced fraud.

POULTRY DISEASE Poultry raisers who wait until dis-ease appears in the flock and then prepare to make a defensive attack are likely to be successful only in rare cases. By far the best plan, say poultry specialists of the United States Department of Agriculture, is to care for the flock in such a way that disease will not appear. The aim in conitan or other old tashloned costume.

Miss Emily Lyman and Miss Ellen
Hawkins are guests of Air, and Mrs.
Harold Shellington, in Jewett City.

Mr. and Mrs. Charles Keeney and
Mrs. Bessie Woodman and son of
Norwick anen. Sunday with Mrs. irolling the diseases of poultry is, they add, to learn how to prevent them raadd, to learn how to prevent them rather than how to cure them. To enlighten poultry owners as to the characteristics of the more important discases in order that they may intelligently use the most improved methods
of combatting them, Farmers' Bulletin 957, important Poultry Diseases,
has recently been published by the
department. The causes, symptoms
and treatment of poultry allments,
from aspergillosis (brooder pneumonia
to worms, are given in this publica-

to worms, are given in this publica-As all poultry is susceptible to many diseases, some of which are highly infectious and resist all efforts of treatment, the bulletin suggests that of treatment, the builetin suggests that when birds become sick it is often the best plan to kill them. The greater the number of birds kept upon any farm or plot of ground, and the more they are crowded together, the more important are the measures for excluding, eradicating, and preventing. cluding, eradicating and preventing the development of the causes of dis-

ease.
When disease appears among poultry the fowls should be removed from

Manville, R.I.

"The whooping cough,—and later the measles left my little boy of eight years with no appetite, thin, frail, delicate and tired all the time. After everything else had failed Vinol gave him a hearty appetite, restored his strength and he is now as well as ever."—Mrs. James H. Hall.

Creates Strength

tiff not fall below two tons or go much above two and three-quarter tons. During the second and third years the total yield for the three cuttings increased gradually from the unlimed plot to the plot receiving the most lime, with only one exception. Also during these two years the average percentage of nitrogen in the dry matter increased gradually from the to-lime plot to the plot receiving the taest lime, with only one exception.

URGES FISH MEAL FOR HOGS. To stimulate greater interest in the roduction of fish meal, which is a PASTURES BEGIN TO FAIL

By P. G. HOLDEN.

A little grain fed to the sheep in the claim of hogs. E. Z. Russell, in charge of swine investigations for the claim greater returns than that the little grain fed later. A very small allowance of later. A very small allowance of A little grain fed to the sheep in the fall, when the pastures begin to fail, will bring greater returns than that fed later. A very small allowance of corn or oats will keep the sheep strong and thriving and in better condition to withstand the winter.

As cold weather approaches, the wool is of good length and hides the physical condition of the sheep. It is then that only the experienced sheep grower or close observer will notice that the animals are shrining in flesh—that instead of improving, they are really growing thinner.

It is poor economy to withhold grain feed until snow covers the ground or states and Mississippi River have been states. States and Mississippi River have been wasting or manufacturing as fertili-zer large quantities of non-edible fish. Mr. Russell's visit to the Gulf states was to investigate the feasibility and to urge the fisheries to manufacture these ponedible fish into fish meal for

> GET THE ICE POND READY. Maybe you don't think that winter is here, but it is on the way and is likely to arrive most any time. This is a good time to get the ice pond

it carefully and repair any weak spots. Then close the gate and let the pond fill, examining the dam again careful-Of course, you are careful that no contamination can drain into your ice

As soon as fall work slackens, get right at the ice pend. Don't put it off.

## GROWING WINTER GREENS. in the milder portions of the country it is possible by the aid of a cold

ich, kale and parsley throughout the winter. The cold frame may be any size from three feet by six feet—this being the size of the standard cold frame cash—to six feet by any multi-ple of three feet. A four-sash frame —that is, one six by twelve feet—would he large enough to supply the average family with winter greens. WATERING COWS.

During the winter, when cows are stabled the greater part of the time, and unless arrangements have been made to keep water before them all the time, they should be watered two or three times a day. If possible, the water should be 15 to 26 degrees above the freezing point, and should be sup-plied at practically the same tempera-

#### DAYVILLE

Mr. and Mrs. Harry Extarley and sons, Ralph and Norman, are to spend Thanksgiving at Potter Hill, Blanchard and family

James E. Blanchard and family had as visitors Thursday, Edwin S. Budlong and Samuel James of Cran-ston, R. L. Mrs. Arthur Bruton and daughter, Ruth, spent several days in Woon-socket, last week.

William Meran and Joseph Weaver who are in service in the U. S. N. R., were at their respective homes for Mrs. Elijah Evans has been seiously ill the past week.

The play. "A Dutch Detective," is be given under the auspices of the Samuel Berriman and family had as guests Sunday Mr. and Mrs. Veil-ter Berriman of Springfield, Jesse Berriman of Boston and Mr and Mrs.

Frank Crowther of Providence.

Mr. and Mrs. N. L. Greig will spend.

Thanksgiving in Boston.

Miss Kate Neville of Blackstone.

was a week end guest of Armand Henault and family. Mr. and Mrs. J. R. Fowen are to move to Danielson, December 1. Sergeant Richard Leiter from Camp Devens was at his home here
